

## **Flood disaster on the Ahr in Rhineland-Palatinate**

**The flood disaster has deeply affected our entire region, the Ahr Valley, and also some of our employees and their family members.**

As a company with regional roots, we also want to use our opportunities to support those affected.

Many colleagues are on the ground as helpers - they are given special leave and provided with the necessary aids.

In addition to a cash donation of EUR 100,000 to the Ahrweiler District Relief Fund, we are providing support in the form of tools and the procurement of urgently needed materials.

**We want to support our employees and the people in the region as best as possible**

We have released our own affected employees from work, are helping them out with rental vehicles, and are providing support in finding housing.

For the DRK local association of the Red Cross we provide storage space for donations, procure needed tools from friendly companies and organize deliveries and distribution.

**Help for reconstruction is urgently needed**

We very much hope that the current willingness to help will continue for a long time and show hope and perspectives to the people in the region.

In order to be able to help the many people affected by the flood disaster, please donate to:
